## **Eco-friendly, energy-efficient household with Biocom**

“Buy from one place!” With this obvious solution, Biocom offers support to all those who want to save energy and money, while guaranteeing quality and an environmentally friendly approach. We purchase the products we use on a daily basis from the same shop as thousands of others: [webshop.okonet.hu](http://webshop.okonet.hu), a partner company of Biocom in Hungary.

Eco-awareness is present in all areas of life, and the company has decades of experience and expertise in this area. So we can confidently say that those who choose Biocom for their chemical-free lifestyle can run a household with tried and tested methods that promote greening. From bathrooms to kitchens, cleaning to personal care, you can get all the products you need in one place, with increasing discounts, and it's also a business opportunity.

This brochure is intended to raise awareness - and covers only a part of Biocom's product line. For more detailed descriptions and tables of active ingredients, please visit the official product pages. For more information, please visit [webshop.okonet.hu](http://webshop.okonet.hu), for news, please visit [biocomnetwork.hu](http://biocomnetwork.hu), and feel free to ask the person who gave you this brochure about their experience!

We wish you good health!

# Odourless protection, aluminium-free refreshment: Natur Deo

The roll-on, which can be used regardless of age or gender, is aluminium-free, but it does not block perspiration, but rather unpleasant odours, with natural ingredients. Step out of the bathroom in the morning with the Natur Deo experience, which provides long-lasting protection without clogging pores, naturally!

## Neutralizes odours naturally

Natur Deo inhibits the growth of bacteria that transform sweat from the body into compounds that cause unpleasant odours and chemically binds the odour molecules that are formed. The skin-friendly active ingredients help to naturally reduce sweating, while not clogging pores or leaving a sticky feeling. They neutralise unpleasant odours without disturbing the skin's natural function. The added fragrance – extracted from sandalwood – is composed of natural molecules and contains no allergenic components in sensitising quantities. Antibacterial, antiseptic, odour-absorbing: naturally!

## It is not perspiration that needs to be stopped!

Made from natural ingredients, this aluminium-free deodorant does not inhibit the natural process of perspiration. It is supposed to eliminate unpleasant body odours and control excessive perspiration, rather than preventing sweating altogether. An antiseptic and anti-inflammatory active ingredient extracted from lichen and myrrh resin, odour-absorbing enzymes created by fermentation of natural sugar cane, antioxidant and skin-softening grapeseed oil, moisturising component, odour-neutralising baking soda – that is what Natur Deo is composed of. What is not contained in it: aluminium salts and triclosan, as the former are strong pore constrictors and clog pores.

# Universal product for many places in the house: soap

Liquid soap from Biocom is a universal cleaning product. More briefly, it has been a legend among the users who have been using the product for decades! Of course, there's no such thing that is an "all purpose product", but experience has shown that it's much more than just a great hand cleanser. It is ideal for the care of dandruff-prone scalps and can be used as the ideal skin cleanser for extremely dry, hypersensitive skin. It is also suitable for washing, cleaning and can have stain removing properties. This means that it can be used in the bathroom, in the kitchen and, when cleaning, in the living room, too.

In addition to the 500 ml version, there is also a 5 litre version in can, which makes it easy to refill the SOAP.

**OFFER:** Clean Soft and Clean Soft Plus with SCD Probiotic Technology are also perfect for cleaning!

## Premium products for hair and scalp care: cleansing and renewal

### Biocom Shampoo (250 ml)

Its natural, herbal active ingredients stimulates hair growth, nourishes the hair follicles, strengthens the hair shaft, cleanses the scalp, reduces excessive oiliness and helps the skin breathe. With 82% organic ingredients!

### Biocom Shampoo (250 ml)

Biocom Hair Conditioner is ideal for coloured, dry, pallid hair that is difficult to comb and has split ends. The product, containing grape seed extract, nettle, sage, coconut milk, "fixes" the split ends, strengthens the hair structure, nourishes the hair fibres, and makes the hair surface shiny. Its natural active ingredients protect against the damaging effects of chemical treatments and frequent washing. The "harmonizing" effect of ilang-ilang essential oil and the rejuvenating effect of grapefruit essential oil make hair care a special experience.

### Biocom Hair Cream (50 ml)

Hair and scalp cream - intensive and complex!

**Active botanical ingredients:** basil stem cell, jojoba, grape seed, sea buckthorn, carrot, rosemary, peppermint, geranium, cedar, nettle, ginseng - they have an effect on the skin, subcutaneous tissues, hair follicles, and thus the entire hair.

**Result:** it fills up the mineral and vitamin stores of the scalp, cleanses the tissues under the scalp, restores blood and lymph circulation, activates the "resting" stem cells, optimizes hair production, and is therefore recommended for the intensive treatment of hair loss, hair thinning, baldness, patchy hair loss, dandruff, itchy scalp.

**Recommendation:** wash your hair twice with diluted Hair Nice Shampoo, apply Hair Nice Conditioner if necessary!

**FOR intensive treatment of problems:** the use of the Hair Cream in a course of treatment and an internal therapy based on the identified causes can greatly help to treat the problems effectively.

## Biocom Stem Cell Serum

This fragrance-free, sulphate-free, preservative-free, colourant-free hair strengthening serum is also part of the Hair Nice range.

Its plant stem cell, vitamin B5, plant keratin, rosemary, MSM, caffeine and grapefruit seed extract content make it a natural cosmetic with vitalizing, toning, regenerating, exfoliating, antiseptic, anti-inflammatory and anti-inflammatory properties. Plant stem cells have genetic factors similar to those of human adult stem cells, allowing us to control the functionality and vitality of our skin and hair follicle stem cells.

**Recommended for:** hair loss, hair thinning, baldness, spotted hair loss, dandruff, itchy scalp. It shall be used every day to renew the hair.

## Biocom Anti-Greying Serum

It naturally restores the production of hair pigment using plant stem cells. The serum containing plant active ingredients without parabens, dyes or silicone - contains 22 plant components that work on three levels: plant stem cells stimulate melanin production and activate stem cells that produce dye;

- antioxidant active ingredients neutralize the "fading" effect of
- hydrogen peroxide that builds up in the body; and
- nourishing active ingredients deliver the necessary vitamins, minerals and enzymes directly to the hair follicles.

Make it part of your daily routine: apply a few drops of the serum to the whole scalp, or just to the necessary areas of depigmentation/grey hair as needed!

## Mirtill in everyday life: cream and spray

### Mirtill common body lotion (50 ml)

According to its name, Mirtill is a common body lotion, but experienced Biocomos have used this product in endless creative ways. The fact that this Hungarian product has been part of the product line for decades shows that provides excellent experience! The cream is suitable for all skin types, but is particularly good for oily skin, skin with large pores, acne prone skin, as well as for wrinkle reduction, after waxing, after sun exposure or solarium. It leaves the skin feeling smooth and glowing. The menthol extract provides a pleasant cooling sensation and its special active ingredients hydrate, regenerate, cleanse, soothe and protect the skin.

### Mirtill Skin refreshing cooling solution (200 ml spray)

Another version of Mirtill is the skin refreshing, cooling solution that can be used multiple times a day to refresh tired legs and arms. The camphor and menthol provide a pleasant fragrance and a refreshing, cooling sensation for everyday skin care. The solution is pH neutral and suitable for all skin types. OFFER: Separate creams are also available to help with hand and foot care.

## Basis of oral hygiene: toothpaste and DENT-AZUR+

### ÖKONET toothpaste (100 ml)

The special formula of Ökonet toothpaste (natural active ingredients, natural sweeteners, preservatives, foaming agents, colourants) ensures perfect care of teeth and gums when used on a regular basis. With natural antibacterial active agents: peppermint, anise, cinnamon, clove, sage, parsley oils.

### The auxiliary xylitol

It has been proven that xylitol has a beneficial effect on teeth and is an effective tooth decay inhibitor. Unlike different types of sugar, its chemical composition prevents it from being used by bacteria in the mouth as a nutrient, thus preventing the acid production responsible for tooth decay.

Therefore, xylitol can significantly help to protect the health of our teeth because:

- it prevents the production of acid by bacteria in the mouth,
- it may reduce the deposition of plaque,
- it may slow down the formation of tartar,
- it may help minerals to reabsorb into tooth enamel.

## DENT-AZUR+ solution for gums and mouth (20 ml)

DENT-AZUR+ is part of  
everyday oral hygiene!

One of the key elements of good oral and dental health is proper care. Its natural ingredients contribute to oral hygiene, maintain healthy teeth and gums, and may help prevent undesirable symptoms associated with periodontitis. When using dentures, frequent oral mucosal symptoms can be reduced by directly treating the area in contact with the denture.

Naturally extracted from chamomile and yarrow, azulanol, the active ingredient in DENT-AZUR+ in concentrated form, has a significant anti-inflammatory effect, while menthol from peppermint has a cooling effect and camphor has a well-known anaesthetic effect. Its rich essential oil content helps to maintain and restore healthy oral flora.

**Application:** For everyday care of the oral cavity, add 5 drops to toothpaste or 5-10 drops to 0.5 dl of tepid water and rinse three times a day!

For sensitive gums, apply 5 drops to a small cotton swab to soak the cotton well, then press it onto the sensitive area or gums and hold for 5-10 seconds!

## Hand, nail and foot care in everyday life

### Ökonet hand and nail cream

Ökonet hand and nail cream is recommended for daily use in 250 ml. Thanks to its chamomile, calendula and aloe vera content, it offers a softening effect on dry skin and nails and can protect hands from drying out. In addition to the popular, basic product, which has been available for decades, three products from the premium range are also available. Two of the Botanifique (the miracles of the herb garden) natural cosmetic products are for hand care and one for foot care.

### Hydrafine Body Butter

(Body butter - ginger and basil - green tea and verbena)

The rich and intensely moisturising Hydrafine Body Butter is a natural composition of avocado, cocoa and shea butter, as well as a mixture of baobab oil and powerful vitamins that boost healthy skin with deep hydration. Made with antioxidant green tea and refreshing verbena. The silky emulsion hydrates the skin and retains its natural moisture to provide a nourishing experience.

### Deep Fusion Foot Cream

(Foot cream - mint and eucalyptus)

Intensive, moisturizing product with cocoa and shea butter extracts, ideal for dry, cracked heels with soothing mint and the deodorizing effect of eucalyptus. It has a high antioxidant content to rejuvenate your legs. (125 ml.)

Fresh Flora

Herbal Harmony

Sweet Orient

### Duo Care Hand & Body Lotion

(Hand and body lotion)

Soften your skin with a dual-action, intense formula! This product combines the beneficial effects of Aloe vera, nourishing rose water and rosemary for perfect hydration that helps to maintain the skin's natural pH balance. (125 ml, in 3 fragrances.)

**OFFER:** Discover **Botanifique's** complete product line for home use, for quality skin care!

## The stars of the kitchen: organic dishwasher detergent and degreaser

Organic Dishwasher Detergent and Kitchen Degreaser, both made with probiotic technology, use natural ingredients to remove grease and burnt-on dirt.

The bio-surfactants in the products not only effectively remove contaminants, but also physically contribute to a normal bacterial environment. This range is safe for your family and pets!

### Economical and gentle dishwashing:

Add 6-10 ml of dishwasher detergent to 5 l of water! It cleans effectively, without excessive foaming, in a 500 ml bottle. In addition, thanks to the grape seed oil extract, it is gentle on the skin!

### Degreasing has never been easier:

Spray the 500 ml degreaser directly onto the surface to be cleaned (stove, sink, extractor hood, tiles, etc.), then wait a little and wipe it off with a sponge or cloth.

### Both are environmentally friendly, because they are:

- phosphate and paraben free,
- easily biodegradable,
- not tested on animals,
- palm free,
- chlorine free.

## Tips for keeping your bathroom clean!

### Cleaning sanitary and toilet (500 ml)

It cleans and removes soap residues and water scale from problematic surfaces in bathrooms and toilets using natural ingredients.

### Made with probiotic technology

The bio-surfactants in the products not only effectively remove various contaminants, but also physically contribute to a normal bacterial environment. This range is safe for your family and pets!

### Easy to use:

Spray directly onto the surface to be cleaned in the bathroom, and after a few minutes, wipe off with a sponge or cloth. Do not use on acid sensitive surfaces such as marble, terrazzo decorative tiles and some enamelled surfaces.

### It is environmentally friendly, because it is:

- phosphate and paraben free,
- easily biodegradable,
- not tested on animals,
- palm free,
- chlorine free.

## Cleaning with mandarin scent without chemicals

### Clean Soft (0.5 litre) with mandarin scent

Universal household cleaner concentrate with fully biodegradable probiotic cleaning culture and mandarin peel extract.

Natural fermentation liquid probiotic cleanser developed by SCD Probiotic Technology, which:

- removes grease and various contaminants from most surfaces,
- cleans and polishes,
- skin and environment friendly product,
- reduces deposits and unpleasant odours within the drainage system.

The dissolving power of mandarin essential oil joins the cleansing power of living beneficial micro-organisms.

**Application and dosage:** use diluted, the proportion may vary depending on the type and amount of contamination. General recommendation: 5 ml added to 5 litres of hand-warm water for mopping up or in a hand sprayer for surface cleaning. The diluted solution should be used within 3 days.

## Perfect, degradable cleaning with mint-lemon fragrance

### SCD Clean Soft Plus (0.5 litre)

SCD Clean Soft Plus (0.5 litre) is a new product in the Clean range with more effective ingredients in a mint-lemon fragrance with millions of patented SCD Probiotics. These beneficial probiotics, and the enzymes and other bioactive substances produced by them, fight against various contaminants with natural and chemical-free effectiveness.

Clean Soft Plus:

- removes grease and different types of dirt from most surfaces (tiles, paving, wood, stainless steel, chrome, plastic, laminate flooring),
- removes limescale,
- cleans and polishes,
- skin and environment friendly product,
- does not contain chemicals harmful to humans, animals or plants,
- reduces deposits and unpleasant odours within the drainage system,
- completely biodegradable.

**General instructions:** Clean Soft + is a concentrate that can be used both concentrated and diluted with water. Its use depends on the type and amount of contamination.

## "Green" washing, also for white clothes: Universal detergent gel

The detergent gel, made with probiotic technology, gently cleans and removes various dirt from clothes. Its natural ingredients keep your clothes soft after washing and eliminate greying. The bio-surfactants in the products not only effectively remove various contaminants, but also physically contribute to a normal bacterial environment. This range is safe for your family and pets!

### It protects the environment, because it is:

- phosphate and paraben free,
- easily biodegradable,
- not tested on animals,
- palm free,
- chlorine free.

## The basic mag- netic element of the eco-house- hold: Ökomag

### Ökomag (soft magnetic ball)

Its name has become a concept over the past decades and it has been used in thousands of washing machines and dishwashers to promote the company's environmental philosophy!

This ball can be used to descale washing machines and dishwashers, reducing detergent consumption.

#### Beneficial properties of the soft magnetic ball:

- it prevents the formation of scale deposits,
- it reduces the amount of detergents and water softeners used,
- it protects the environment,
- it is easy to use.

Using the Ecomag is very simple: just put the ball in the washing machine or dishwasher and wash it with the clothes or dishes.

#### Other advantages:

- it is made of recyclable polyethylene,
- it does not make noise in the washing machine,
- it saves the washed material.

# King of our garden: the natural AGRO!

## Ökonet Agro (1 litre)

It is a special microbiological product for soil enrichment, which improves soil quality, increases soil life activity and supports humus formation. It can be used for all crops.

### Effect of Agro:

- It improves the biological, chemical and physical condition of soils.
- It improves soil microflora, soil vitality and biological activity.
- It improves soil structure, provides better water management and reduces tillage.
- It preserves nutrients, breaks down organic substances and converts them into valuable bioactive substances such as: organic acids, antioxidants, vitamins, phytohormones, enzymes, specific antibacterial substances.
- It helps to unlock micro- and macroelements.
- It increases the humus content, provides nutrient replenishment and circulation.
- It reduces harmful micro-organisms and putrefactive processes.
- It boosts photosynthesis processes.
- It promotes more intensive germination, root and shoot formation.
- It provides uniform fruit set and ripening, more balanced, higher yields and longer storage life.

### Other features and benefits:

- It cannot be overdosed, it has no side effects, it is non-toxic.
- After applying it, there is no waiting period until harvest.
- With constant use, weed problems can be reduced.
- It is a liquid, live, concentrated multimicrobial formulation with ingredients of natural origin.
- It is a chemical-free, safe and environmentally safe product.
- The product does not contain any infectious organisms or other contaminants harmful to human, animal or plant health.

### Directions for use:

- For soil treatment of all field and horticultural crops, applied at a rate of 50-100 l/ha at a concentration of 10% and mixed into the soil 2-3 times a year, in spring before sowing/planting, before ripening and in autumn after harvest.
- This product is used for all arable and horticultural crops as a foliar treatment, sprayed at a rate of 20-50 l/ha at a concentration of 10%, about 4 times during the growing season.
- To be used for the irrigation of potted plants, ornamental trees, ornamental bushes at a concentration of 1% (100ml/10l water).

**OFFER:** You can read the submissions from previous AGRO competitions on [biocomnetwork.hu](http://biocomnetwork.hu), with lots of positive observations, photos and descriptions.

## Probiotic deodorizer for comfort

### SCD Shoe Magic (250 ml)

Natural product with the power of probiotics for effective deodorisation, safe to use for your family and pets. In the production of SCD range, millions of SCD probiotics are used that are effective against unpleasant odours and other problems of all kinds.

SCD Shoe Magic with natural ingredients and chemical-free effectiveness:

- deodorises your shoes,
- provides your feet with all-day comfort and a healthy environment.

Ingredients: water, SCD Probiotic strain cultures, fruit and plant extracts, natural tea tree essential oil, stone meal, sea salt. The product contains active biological components, so it can form deposits as a result of a natural process, which does not affect its effectiveness.

It's just a simple move: spray directly into the shoe and leave to dry!

## Energy saving in a simple way: Turbo Booster

It is common knowledge that the biggest polluters of our environment and air are boilers burning hydrocarbons and car engines. Due to improper combustion, much of the energy in the fuel is not used, and a lot of useful energy is lost through the chimney. Turbo Booster was developed to solve these problems.

### This is how it works:

Special magnets have been placed in a ring-shaped housing to create a particularly strong, homogeneous magnetic field in the centre of the ring. The strong magnetic field prevents electrostatic charging of the fuel molecules, reduces viscosity and so the fuel or combustible fuel is broken down into much smaller droplets during atomization. The smaller drops can mix better with the air, allowing more oxygen to come into contact with the hydrocarbon molecules, which speeds up combustion.

### Advantages:

- As a result of more efficient combustion, the amount of toxic CO and CH in the exhaust gas is reduced.
- The installation of Turbo Booster does not apply to the warranty of vehicles or boilers.
- Turbo Booster has a basically infinite lifespan: it has no wearing parts that need replacing.

# Clean water for the whole family!

## Why do we need a home water purifier?

- it is becoming more and more difficult to get the clean water we need to stay healthy,
- for babies, children, senior and sick people, we cannot provide safe hydration,
- it is not possible to purify the water used for cooking,
- we drink drinks contaminated with colourings, artificial substances
- all this imposes a serious burden on our health,
- we drink mineral water, the ingredients of which are not always good for us,
- we are all thirsty, and it costs in a fortune.

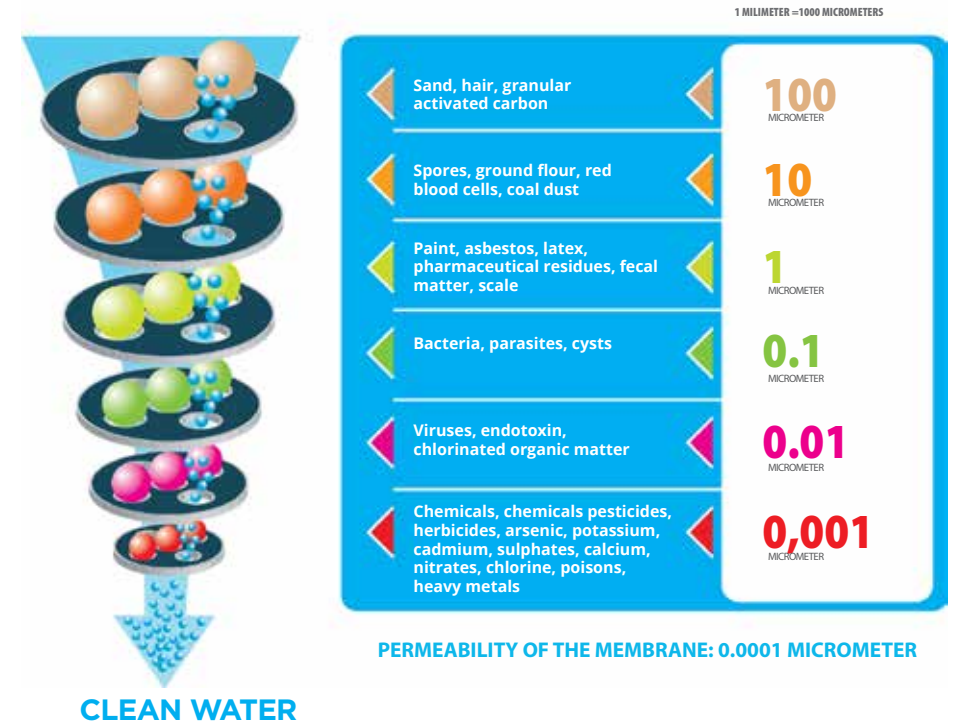

## Reverse osmosis

### Working principle: Reverse Osmosis (RO)

During reverse osmosis, the solvent (clean water) flows under external pressure through the semi-permeable film from the higher concentration solution (contaminated water) to the lower concentration (purified water). The water to be purified is constantly moving along the membranes designed to purify the water, which continuously removes the impurities built up on the membrane surface. This water purification method is more effective than ever before, since the properties of the membrane allow the filter to remove contaminants smaller than bacteria from drinking water.

Water purifiers can remove 95% of solids and 99% of organic matter and bacteria from water. The smallest mesh size of a filter system in a small drinking water purification system using the reverse osmosis principle is 0.0001 micron.

Quick and easy to install in any kitchen.

## WATER FILTER RO 102-A WATER FILTER

RO 102-A uses reverse osmosis technology to provide you with safe, clean drinking water. It provides premium water quality without using chemicals or electricity. With the RO 102-A water filtration system, you can get safe, clean drinking water from the tap 24/7, so your family no longer needs to buy bottled water from the shop.

**Tipp**

It is designed for families where there is adequate water pressure in the household.

## WATER FILTER RO 102-A WATER FILTER DEVICE

RO 102 is equipped with a pressure booster pump, which also ensures fast filling of the tank at lower mains water pressure, thus guaranteeing a sufficient water flow. Both devices have the additional advantage of producing water that is...

- healthy,
- smooth and delicious,
- does not run out,
- not full of foreign matter, dirt,
- usually at home, so you don't have to carry it home,
- mild and does not build up limescale in the pot,
- suitable for cooking of any kind,
- suitable for eating in larger quantities, cheap to produce,
- highly soluble and versatile.

**Tipp**

It is designed for families where the water pressure in the household is inadequate.

## RO 929 - OFFICE WATER FILTER

Hot tea, cool, purified water - right away.

Make clean water by pressing a button!

An ideal drinking water source for families, schools, kindergartens, offices and communities. This device is available in floor standing version. It is intended for use where there is a constant need for hot, cold and room temperature drinking water. It is intended for use where there is a constant need for hot, cold and room temperature drinking water. (It is not suitable for producing mineral water!)

It is ideal for use in households, offices and institutions.

It provides you with fresh, healthy drinking water 24/7, whether it's for cooling, heating or, of course, at normal temperature.

It has an automatic hot/cold switch, reheats up to 98°C and switches off automatically when the tank is empty. Built-in float valve prevents overflow. It allows you to make instant soup, tea, coffee or drink cool, healthy, delicious water. It has a microprocessor control system, three temperatures, RO system, suitable in offices, automatic standing water dispenser.

## 919 CWR table water device

Auxiliary machine without filter technology. A very good accessory to a clean water source using reverse osmosis (e.g. Water Filter RO 102-A). Hot tea, cool, cold, purified water - right away.

# LOURDES

## HYDROGEN GENERATOR

Drinking water rich in HYDROGEN is the basis of our lives! If you drink 6-8 glasses of this water every day, you'll be doing a lot for your health and that of your family! Its biological background is as follows: after consumption, HYDROGEN reaches all tissues and cells within 8-10 minutes, and due to its size it easily crosses the cell wall, making it the smallest and one of the most effective antioxidants!

It has already been used in Japan as an anti-ageing, vascular repair water, which helps to regenerate the vascular system, to remove "bad" cholesterol from the blood vessel walls and to neutralise the bad cells that proliferate. Many people use it to help reshape their skin, to make it healthy and firm again.

It can also be effective in the treatment of patients with diabetes, kidney disorders and atopic eczema. If you drink the HYDROGEN-rich water made with the Lourdes device, it can have a positive effect on your health and performance! It can improve your energy levels and help you live longer!

## H2-gO Hydrogen water making glass

**H2-gO is a brand new portable device that adds hydrogen to water!**

It is particularly useful because of its easy maintenance, simple operation and simple design, as well as for people who are always on their way or in households with only one person.

**Main properties:** The ORP of the water produced is -150 / -350 mV, which is an extremely high antioxidant value; it is portable, works very quickly (it enriches water in 3 minutes); you can run up to 50 programs in one charge; the battery life can run 4500 - 7500 programs; it has no parts to be regularly replaced; the glass design is more hygienic, easy to clean.

## Reg-Enor cure is the first choice of Biocom members

Why should a product that is essentially a detoxifier be included in a household catalog? The answer is simple: because Reg-Enor is officially a liquid dietary supplement containing whey, vitamin C, grapefruit seed extract and fibre extract. In fact, it is much more than this: it forms the basis of a complex lifestyle change programme that has helped thousands of people in many ways, and should be found in every home - just as it has been a top consumer TOP for decades.

### How can Reg-Enor (cure) help?

According to the late Hungarian inventor, reflexologist Szabó Sigfrid, when we say that Reg-Enor® can help with "anything", we are talking about a three-part system. It is based on food supplement fluids, but it is particularly important to follow the recommended diet during the Reg-Enor cure and to make lifestyle changes, not only in food choices but also in physical activity as much as possible. Taken together, Reg-Enor® food supplement fluid (combined with diet and lifestyle changes) can help digestion to function properly, helping to flush harmful deposits from the body by triggering natural, self-healing processes. In many cases, as the examples show, weight loss can be one of the results of this complex process.

### What could be the main source of problems today?

It is generally accepted in the scientific community that the modern diet - processed foods instead of ready-made meals with preservatives and raw food - overloads the excretory organs, reducing the chance of natural regeneration. In addition, physical inactivity, stress and lack of rest contribute to this. Typical problems are based on poor digestion, metabolic disorders and overweight.

### How can Reg-Enor be a good solution?

It can be a cure, a system, part of a lifestyle change, in which the conscious choice of food plays an important role. We should get back to the eating habits of our grandparents, great-grandparents and great-great-grandparents, and we don't even need to fast during the Reg-Enor cure! All this means a varied, balanced diet with foods that don't ferment/rot in the digestive system, in contrast to foods high in sugar.

### Reg-Enor is the key to the triple system

Based on the experience of the last decade, this product works like a key to the engine: it triggers and keeps the process moving, however, it is also true that the product is useless if you do not follow the recommended diet during the cure. Thus, the cure is not only a product, but a complex lifestyle change, which is inevitable.

**OFFER:** You can find more dietary advice, recipes and experience related to this topic at [regenor.hu](http://regenor.hu)

# BIOCOM4YOU.COM SLIM

for your slimness...

## The SLIM product line can help people who want to lose weight!

**SLIM 40** is a sugar-free food supplement drink powder with cherry and pear flavours, and **SLIM 40 Burn** is a supplement that supports diets and cures, making it the perfect complement to the original diet drink powder.

## The manna of SLIM 40 Burn is glucomannan

Glucomannan, the key ingredient of sugar-free yet delicious Slim40, contributes to weight loss within a low-calorie diet. It can contribute greatly to weight loss if the person on the diet really wants to do so by eating carefully, reducing calories and, where possible, including exercise. Glucomannan, also known as Devil's Tongue extract, is the active ingredient of a dietary supplement that is high in fibre. It has a fantastic property: as soon as you mix it with water, it will have a jelly consistency, which fills the stomach as the fibre absorbs the water. While it passes through the body, it stimulates intestinal and gastric function, however, according to unanimous sources, it can also normalise blood sugar levels and aid digestion. In addition, the fibre content can also contribute to detoxification.

## It fills you up and reduces hunger

As it has a gel-like consistency that fills the stomach, it also reduces the feeling of hunger. It literally fills you up, yet it's not a "miracle cure" that allows you to eat foods high in sugar or eat to excess. However, it can be a great complement if you have a bit of self-control. Especially if you combine it with exercise. For those of you who have been doing both, now they have found the key to weight loss! This popular food supplement is enriched with several important ingredients and now is available in packs for 40 days in the webshop!

**Directions for use:** Mix one portion (3 g) of Slim40 powder with 300 ml of cold water and drink it three times a day, before meals.

## SLIM 40 Burn: supports the diet

**SLIM 40 Burn** is a caffeine-free, fat metabolism-boosting food supplement containing L-carnitine, white kidney bean extract, other plant extracts, chitosan and chromium.

## Supporting and helping

Slim40 Burn is a food supplement that supports the diet and the cure with drink powder. Thanks to its complex active ingredients, it can help the process in multiple ways. And it does so without containing various stimulants that would raise blood pressure. Thanks to its carbohydrate- and fat-reducing properties, it is recommended as a food supplement to classic meals and/or the SLIM 40 diet, but it can also be used on its own, and may also have an indirect energising effect in connection with lifestyle changes.

## When is it recommended to take?

If you want to enhance your diet, take it in the morning and during the day, 15-20 minutes before meals, with plenty of liquid, and since one dose is equivalent to one capsule, the 60 capsules are enough for a month. It is not recommended for use by people under 16 years, pregnant women or breastfeeding mothers, therefore it is safe to say that the adult society wishing to lose weight can find another great supplement by ordering Slim40 Burn. Burn can help anyone who is stuck in the weight loss process, or who wants to achieve results more quickly.

## How to look after pets!

Immuno-Drops Dog & Cat (100 ml pack) is an effective immunostimulant and metabolic activator.

### One of its active ingredients is **DMG (dimethylglycine aminosa)**:

- an essential molecule for almost all biochemical processes in the body,
- it can increase the immune response up to 400 times (!),
- it supports regeneration processes.

### Its other major ingredient is **Lactoferrin**:

- it contains substances necessary for the development of the intestinal flora and the development and enhancement of the immune system,
- it also has an antibacterial effect in the gut.

**Additional advantages:** anti-inflammatory effect, and vitamin B12 as an important component, which helps on several points.

**Ingredients:** DMG (dimethylglycine), Lactoferrin, Taurine, Vitamin B12, glycerol, citric acid, distilled water.

**Certified** as an authorised feed additive by a registered manufacturer.

**Instructions for use:** to be taken orally or mixed in feed, in the latter case the cooked feed should not be hot!

### Portion (for dogs and cats):

Up to 0-9 kg	1.0 ml/day
Up to 10-18 kg	1.5 ml/day
Up to 19-36 kg	2.0 ml/day
Up to 37-45 kg	2.5 ml/day
Over 45 kg:	3.0 ml/day

A fully squeezed pipette will collect 1 ml of liquid. In more severe cases, twice to three times the above doses may be recommended. There are no known contraindications or drug interactions.

## Take your healthy drink with you!

The bottle is essential for an experienced Biocom worker, especially if you already have a water purifier. The only limit is your imagination when it comes to making a healthy, tasty cocktail and taking it anywhere, drinking it all day long. You can make delicious lemonade with Vitamin C+Vitamin D+Vitamin D+MSM drink powder; KinderVit for kids comes in two flavours; KetoGreen and Immune Supreme (algae) can make your day greener; Collagen+Rust+Amino mix is always a good idea; and Flavonoid Complex can add extra colour and flavour. (But it also useful after waking up, when you put the Mikrobiom powder in water...)

## Portable Biocom "pharmacy"

Sometimes, not only on business trips and holidays, but also in everyday life, it can be difficult to carry the boxes of all the pills and tablets we take "irregularly regularly". For example, preparing a midday or evening dose is much easier if it's packed in advance, so you only need a tiny space or a small pocket in your bag to store the capsule holder. Therefore, we do not have to give up on conscious health maintenance and dietary supplementation in any situation. Moreover, you can even have a real mobile "pharmacy" with the bottle!

# Top 10 products

## 1. Reg-Enor

According to tens of thousands of experiences over the past decade, the product works like a key to the engine, it starts and keeps the processes moving, but it is also true that the product is useless if you do not eat the recommended foods during the program... Therefore, the program consists not only of a product, but also of a complex lifestyle change, which it is unavoidable.

## 2. Collagen + Fiber + Amino drink powder

This special preparation supports the body regarding all aspects of beauty! Thus, it is an excellent supplement for people on cures, dieters, those participating in slimming programs, and all those who live in the spirit of health, beauty and flexibility and want to support their digestion.

## 3. Grapefruit seed extract

It has been known for decades, that grapefruit seed extract has natural antiviral, antibacterial and antifungal properties. It may be the best option for those looking for an antimicrobial product with a wide spectrum of benefits. This extract is beneficial in destroying hundreds of strains of bacteria, viruses and parasites even in very small quantities and it keeps friendly bacteria intact.

## 4. 15 Day Total Body Cleanse

Would you like your body to breathe from time to time? Would you strengthen your resistance by flushing out toxins? Do you have a bit more than two weeks for a thorough cleansing? If you answered yes to all three questions, the Total Body Cleanse, Biocom's 15-day program, could be prepared for you!

## 5. Slim 40+Burn

Biocom's preparation can greatly help weight loss, if the dieter himself takes action for it by eating carefully, reducing the number of calories and possibly incorporating exercise.

## 6. Q-Vital

Amounts of coenzyme Q10 is naturally decreased in the body with aging. There is a presumption that Q10 may be one of the components of the recipe to stay young therefore it is strongly recommended to supplement as you get older!

## 7. Immun Supreme

A product that can really clean your body! This product provides a trifold effect that combines cleansing, nourishment and cell protection. It contains close to 4000 vital nutrients and Astaxanthin, which is one of the most powerful antioxidant and free radical scavengers in the world.

## 8. Olive tree

Protect your body from harmful viruses and bacteria with this preparation having a particularly strong active ingredient! You may take the result for granted, as research has already shown that the enzymes of the olive tree successfully fight even against retroviruses.

## 9. Krill Oil

Krill Oil is regarded the best source of Omega 3. Omega 3 deficiency may even be more harmful than a low-fiber diet and may be the main cause of societal damage developed and spreading across the world.

## 10. Flora Plus

It contains seven digestive probiotics trains to bring balance into the gut flora and regulate digestion. It has around 4 billion live microorganisms.

The TOP10 list was created on the basis of the decisions of consumers and is constantly changing. However, the other 170 products are also important and often meet special needs, so it is worth reading the **Health Catalogue** presenting dietary supplements, or browsing online at **webshop.okonet.hu**.
